

# POZ-LOC<sup>®</sup> Round Sign Support

SIGN POSTS & SIGN SUPPORTS

# POZ-LOC® Round Sign Support

## TRAFFIC POST FEATURES

- Electric resistance welded from hot-dipped galvanized steel sheet conforming to ASTM specifications A-653-G90 commercial weight.
- Galvanized inside and out.
- Produced to ASTM A-787 specification for welded mechanical tubing.
- Clear acrylic protective coating.
- Available with electrostatic powder coating for years of additional life in five colors.
- Available in 2-3/8" diameter.

## SOCKET AND WEDGE SYSTEM FEATURES

- POZ-LOC® Socket System is a cost effective way to install small signs without digging, concrete, threading, or nuts and bolts.
- Top of the socket is installed flush with the ground to help minimize damage to the socket system upon vehicle impact within NCHRP Report 350 crash test standards.
- Tested to NCHRP Report 350 and designed to AASHTO guidelines.

## CORROSION RESISTANT AGAINST DAMAGING SUBSTANCES SUCH AS:

- Rust
- Chemicals
- Salt
- Fertilizers
- Insecticides
- Fungicides
- Motor oils
- Gasoline
